LIGHTING SOLUTIONS FOR PORT AND TERMINAL APPLICATIONS

HOLOPHANE®

EXCEPTIONAL PRODUCTS, SERVICES, AND TECHNOLOGY TO HELP DIFFERENTIATE YOUR PORTS AND TERMINALS

Seaports, airports, and terminals present challenging requirements for lighting, including exposure to saltwater, wind, and rain. Lighting solutions must perform in these elements while delivering energy-efficient, cost-effective illumination that improves visibility and enables a safe working environment. From cranes to warehouses and hangars to parking garages, choose a lighting and controls package that delivers on these needs and optimizes your operations with scheduling, full circuit dimming, smart metering and more.

FIND RECOMMENDED LIGHTING SOLUTIONS FOR PORT AND TERMINAL APPLICATIONS

Lighting and controls solutions tailored to your facility, combined with the information you need to complete your project. Get spec sheets, BIM and IES files, utility rebate calculations and more.

SPOTLIGHT ON: LIGHTING AND CONTROLS TAILORED TO PORT AND TERMINAL APPLICATIONS

HMAO™ LED IV High-mast Lighting

The fourth generation Holophane HMAO LED high-mast fixture provides long system life and up to 65% energy reduction over traditional HID products.

DTL® DLL Photocontrols

Designed for a 20-year operating life with superior inrush current and surge-protection features, the DLL Elite photocontrol supports the extended life and low maintenance benefits associated with LED fixtures.

Predator® LED Utility Floodlights

By combining the robust mechanical design features with the optical expertise and permanence of prismatic glass, the Predator LED industrial utility floodlight excels as a direct retrofit for both yoke and knuckle mount floodlights.
