New HFL FLUORESCENT LUMINAIRES OFFER ENERGY EFFICIENCY FOR HAZARDOUS ENVIRONMENTS

Fixtures are reliable, require minimal maintenance

GRANVILLE, Ohio (Date) – New Holophane HFL fluorescent luminaires provide an energy-saving lighting solution for hazardous applications. The fixtures are designed for safe operation and to meet the specific challenges of a Class I Div 2 and Class II Div 2 environment.

The new HFL fixtures may be used with T5, T8 and T5HO fluorescent lamps in 2, 3, 4 and 5-lamp combinations. Options include emergency battery back up and premium specular aluminum reflector.

“We are continuing to deliver solutions that meet the demands of a competitive global marketplace where energy savings and productivity are paramount. The HFL luminaire is designed to perform effectively in the most demanding environments” said Tamar Williamson, Holophane Product Manager.
